Career Objective

To start my career as a Software Engineer, apply my programming knowledge, learn cutting-edge tools, and contribute to building scalable applications.

Academic Credentials

B.Tech – Raghu Engineering College, JNTUGV, Visakhapatnam 2023 – Present
CSE Specialization in AIML – CGPA: 8.34

Intermediate – Sri Chaitanya College, Palasa 2021 – 2023
MPC – Percentage: 94.9%

Little Angels EM High School, Palasa(M), Srikakulam(D), Andhra Pradesh 2020 – 2021
SSC – Percentage: 100%

Technical Skills

- **Programming Languages:** Python, Java, C
- **Database Languages:** SQL
- **Web Technologies:** HTML, CSS

Soft Skills

- Collaboration
- Team Building
- Leadership
- Public Speaking

Projects

AI Face Mood Song Detector

- Built a real-time AI-powered music recommendation system that detects a user's facial mood and plays suitable songs accordingly.
- Used computer vision and deep learning to analyze facial expressions and classify emotions in real time.
- Captures live facial input through a webcam and identifies moods such as happy, sad, angry, or neutral.
- Automatically selects and plays songs that match the detected emotion, creating a personalized music experience.

Certificates

- NPTEL Certification from IIT Kharagpur in Python
- SkillRack Certification in Python Programming Language
- SkillUp Certification in Basic Data Structures and Algorithms

- Internship Certification from CodTech IT Solutions Private Limited in Artificial Intelligence (AI)

Personality Traits

- Highly adaptable and quick to adjust in dynamic environments
- Self-motivated with a strong drive to learn and improve
- Disciplined, punctual, and well-organized with leadership and time-management skills

Declaration

I hereby declare that the information provided is true and accurate to the best of my knowledge.

Place: Visakhapatnam
